

Kaiyang Zhou

Research Fellow
School of Computer Science and Engineering
Nanyang Technological University, Singapore

E-mail: kaiyang.zhou@ntu.edu.sg | [Homepage](#) | [Google Scholar](#) | [Github](#)

Research Interests

Machine Learning, Deep Learning, Computer Vision

Research Highlights

My research centers around the development of generalizable and efficient machine learning models—particularly those based on deep learning—for large-scale data analytics, with applications to computer vision and more. My papers have been published at major journals and conferences in relevant fields, such as [TPAMI](#) (flagship journal in AI), [IJCV](#) (flagship journal in computer vision), ICLR ([#1 conference in AI](#)), AAAI, and the three prominent computer vision conferences (i.e., CVPR, ICCV & ECCV). In total, I have published over 15 papers—including 2x TPAMI, 1x IJCV, 2x TIP, 1x ICLR, 2x AAAI, 1x CVPR, 2x ICCV, 3x ECCV, 2x BMVC, and 1x MVA—and filed 2 patents. I serve as an area chair/senior program committee member for BMVC 2022 and AAAI 2023.

Google Scholar Citations: 1,704 (h-index: 14), as of Aug 2022.

Appointments

Nanyang Technological University, Singapore <i>Research Fellow with Prof. Ziwei Liu and Prof. Chen Change Loy</i>	Jan 2021–present
Samsung AI Center Cambridge, UK <i>Research Intern with Prof. Tao Xiang</i>	Nov 2018–May 2019
SIAT-MMLAB, Chinese Academy of Sciences, China <i>Research Assistant with Prof. Yu Qiao</i>	Oct 2016–Aug 2017

Education

University of Surrey, UK PhD in Computer Science <i>Supervised by Prof. Tao Xiang</i>	Apr 2019–Sep 2020
Queen Mary University of London, UK PhD in Computer Science (transferred to Surrey in Apr 2019 with Prof. Xiang) <i>Supervised by Prof. Tao Xiang</i>	Sep 2017–Mar 2019
University of Bristol, UK MSc with Distinction in Advanced Computing <i>Supervised by Prof. Majid Mirmehdi and Dr. Adeline Paiement</i>	Sep 2015–Sep 2016
University of Ulster, UK BSc with First Class Honor in Computer Science <i>Supervised by Dr. Inaki Rano</i>	Sep 2014–Jun 2015
Fujian Normal University, China BEng in Digital Media Technology	Sep 2011–Jun 2015

Grants

Co-I, “3D Geometry and Semantic Modeling for Human-Scene Interaction,” MOE AcRF Tier 2. (S\$ 613,574.00.)

Patents

1. **Kaiyang Zhou**, Jingkang Yang, Chen Change Loy, Ziwei Liu, and Jing Shao. Dynamic prompt generation technology for vision-language models. Singapore Patent No. 10202202104P, 2022. (China Patent No. 202210431968.4. Filing date: 22 April 2022.)
2. Yu Qiao and **Kaiyang Zhou**. Deep learning-based video summarization method, device and end equipment. China Patent No. CN201711374076.0, 2018.

Professional Services

Organizer:

- [The AI Talks](#) (an initiative aiming to democratize AI through open talks) 2022–present

Area Chair / Senior Program Committee:

- AAAI Conference on Artificial Intelligence (AAAI) 2023
- British Machine Vision Conference (BMVC) [2022](#)

Reviewer:

- IEEE Transactions on Pattern Analysis and Machine Intelligence (TPAMI)
- IEEE Transactions on Image Processing (TIP)
- IEEE Transactions on Multimedia (TMM)
- IEEE Transactions on Circuits and Systems for Video Technology (TCSVT)
- International Journal of Computer Vision (IJCV)
- ACM Transactions on Multimedia Computing, Communications, and Applications (TOMM)
- International Conference on Learning Representations (ICLR)

- Advances in Neural Information Processing Systems (NeurIPS)
- International Conference on Machine Learning (ICML)
- AAAI Conference on Artificial Intelligence (AAAI)
- IEEE Conference on Computer Vision and Pattern Recognition (CVPR)
- International Conference on Computer Vision (ICCV)
- European Conference on Computer Vision (ECCV)
- British Machine Vision Conference (BMVC)

Teaching Experience

Nanyang Technological University

Lecturer / Guest Lecturer

- AI6126: Advanced Computer Vision (Topic: Open-World Visual Recognition; Master-level) Apr 2022
- [OpenMMLab Workshop](#): Object Detection June 2021

Queen Mary University of London

Teaching Assistant

- ECS797: Machine Learning for Visual Data Analytics Spring 2018
- ECS708: Machine Learning Fall 2017, Fall 2018

Mentoring Experience

Xinyu Pan (PhD@CUHK, co-supervised with Prof. Chen Change Loy)	2022–present
Yuanhan Zhang (PhD@NTU, co-supervised with Prof. Ziwei Liu)	2022–present
Yuhang Zang (PhD@NTU, co-supervised with Prof. Chen Change Loy)	2021–present
Jingkang Yang (PhD@NTU, co-supervised with Prof. Ziwei Liu)	2021–present
Zhongying Deng (PhD@Surrey, co-supervised with Prof. Tao Xiang)	2019–2020

Talks

Visual Recognition: From Closed-set Discrete Labels to Open-set Natural Language Supervision

Invited talk at the IET CV Workshop, NTU, Singapore, Oct 2021

Multi-Source Domain Generalization and Adaptation

Invited talk at MMLab@NTU, Singapore, Jul 2020.

Summarizing Videos with Deep Reinforcement Learning

Invited talk at the Intelligent Sensing Summer School, QMUL, London, Aug 2018

Awards & Honors

Outstanding Reviewer for ICCV 2021	2021
Top 25% of Program Committee Members of AAAI 2021	2021
University Strategic Funds Studentship, University of Surrey	2019–2020
Queen Mary Principal's Research Studentship, Queen Mary University of London	2017–2019
Innovation Scholarship for Contribution to Patent, SIAT, Chinese Academy of Sciences	2017
Best Master's Thesis, Dept. of Computer Science, University of Bristol	2016
University Scholarships, Fujian Normal University	2011–2013

Selected Open-Source Software

I promote open-source AI research and have been an active contributor to the open-source community on Github. I have developed several open-source projects that have been widely used by the community, of both academia and industry, with over 6k stars received in total on Github. Below are the two most representative projects. See my [Github page](#) for more.

1. Torchreid

- a Python library for research on deep learning-based person re-identification
- received 3.5k+ stars on Github ([ranked No. 1 by popularity on Github for person re-id](#))
- link: github.com/KaiyangZhou/deep-person-reid

2. Dssl.pytorch

- a Python library for research on domain generalization and domain adaptation
- received 600+ stars on Github
- link: github.com/KaiyangZhou/Dssl.pytorch
