

Kaiyang Zhou

Research Fellow
School of Computer Science and Engineering
Nanyang Technological University, Singapore

E-mail: kaiyang.zhou@ntu.edu.sg | [Homepage](#) | [Google Scholar](#) | [Github](#)

Research Interests

Machine Learning, Deep Learning, Computer Vision, Artificial Intelligence

Research Highlights

My research centers around the development of *generalizable* (across domains / environments / tasks) and *efficient* (small / fast / low-power) machine learning models—particularly those based on deep learning—for large-scale data analytics, with applications to computer vision, reinforcement learning, machine perception, medical image analysis, and more. My papers have been published at major journals and conferences in relevant fields, such as [Trans. PAMI](#) (flagship journal in AI with IF=24.31), [IJCV](#) (flagship journal in computer vision with IF=13.37), ICLR ([#1 conference in AI](#)), AAAI, NeurIPS, and the three prominent computer vision conferences (i.e., CVPR, ICCV & ECCV). In total, I have published over 15 papers including 2x TPAMI, 1x IJCV, 2x TIP, 1x ICLR, 2x AAAI, 1x NeurIPS, 1x CVPR, 2x ICCV, 3x ECCV, 3x BMVC, and 1x MVA. I have been actively engaging in academic services: I am a *guest editor* of IJCV, and serve as an *area chair/senior program committee member* for BMVC'22 and AAAI'23.

Google Scholar Citations: 1,907 (h-index: 14), as of Oct 2022.

Appointments

| | |
|---|-------------------|
| Nanyang Technological University, Singapore <i>Research Fellow with Prof. Ziwei Liu and Prof. Chen Change Loy</i> | Jan 2021–present |
| Samsung AI Center Cambridge, UK <i>Research Intern with Prof. Tao Xiang</i> | Nov 2018–May 2019 |
| SIAT-MMLAB, Chinese Academy of Sciences, China <i>Research Assistant with Prof. Yu Qiao</i> | Oct 2016–Aug 2017 |

Education

| | |
|---|----------|
| PhD in Computer Science, University of Surrey, UK <i>Supervised by Prof. Tao Xiang</i> | Sep 2020 |
| MSc in Advanced Computing (Distinction), University of Bristol, UK <i>Supervised by Prof. Majid Mirmehdi and Dr. Adeline Paiement</i> | Sep 2016 |
| BSc in Computer Science (First Class Honor), University of Ulster, UK <i>Supervised by Dr. Inaki Rano</i> | Jun 2015 |

Publications

Top-3 publications:

1. Kaiyang Zhou, Ziwei Liu, Yu Qiao, Tao Xiang, and Chen Change Loy. Domain generalization: A survey. *IEEE Transactions on Pattern Analysis and Machine Intelligence (TPAMI)*, 2022. **IF: 24.31**. [pdf](#) (TL;DR: A comprehensive survey that summarizes the recent ten-year progress in domain generalization.)

2. [Kaiyang Zhou](#), Jingkang Yang, Chen Change Loy, and Ziwei Liu. Learning to prompt for vision-language models. *International Journal of Computer Vision (IJCV)*, 130:2337–2348, 2022. **IF: 13.37.** [pdf](#)
(TL;DR: An efficient and generalizable prompt learning approach for adapting large-scale vision-language models.)
3. [Kaiyang Zhou](#), Yongxin Yang, Andrea Cavallaro, and Tao Xiang. Learning generalisable omni-scale representations for person re-identification. *IEEE Transactions on Pattern Analysis and Machine Intelligence (TPAMI)*, 2021. **IF: 24.31.** [pdf](#)
(TL;DR: An extremely lightweight person re-id neural network that, once trained, can generalize from one dataset to another without retraining (also widely used by the community for other human-centered applications such as person tracking and human behavior analysis).)

Refereed journal articles:

1. [Kaiyang Zhou](#), Ziwei Liu, Yu Qiao, Tao Xiang, and Chen Change Loy. Domain generalization: A survey. *IEEE Transactions on Pattern Analysis and Machine Intelligence (TPAMI)*, 2022. **IF: 24.31.** [pdf](#)
2. [Kaiyang Zhou](#), Jingkang Yang, Chen Change Loy, and Ziwei Liu. Learning to prompt for vision-language models. *International Journal of Computer Vision (IJCV)*, 130:2337–2348, 2022. **IF: 13.37.** [pdf](#)
3. Zhongying Deng, [Kaiyang Zhou](#), Da Li, Junjun He, Yi-Zhe Song, and Tao Xiang. Dynamic instance domain adaptation. *IEEE Transactions on Image Processing (TIP)*, 31:4585–4597, 2022. **IF: 11.04.** [pdf](#)

Talks

Visual Recognition: From Closed-set Discrete Labels to Open-set Natural Language Supervision

Invited talk at the IET CV Workshop, NTU, Singapore, Oct 2021

Multi-Source Domain Generalization and Adaptation

Invited talk at MMLab@NTU, Singapore, Jul 2020.

Summarizing Videos with Deep Reinforcement Learning

Invited talk at the Intelligent Sensing Summer School, QMUL, London, Aug 2018

Honors & Awards

| | |
|--|------|
| Outstanding Reviewer, ICCV 2021 | 2021 |
| Top 25% of Program Committee Members, AAAI 2021 | 2021 |
| University Strategic Funds Studentship, <i>University of Surrey</i> | 2019 |
| Queen Mary Principal's Research Studentship, <i>Queen Mary University of London</i> | 2017 |
| Innovation Scholarship (for contribution to patent), <i>SIAT Chinese Academy of Sciences</i> | 2017 |
| Best Master's Thesis, <i>University of Bristol CS Department</i> | 2016 |

Selected Open-Source Software

I promote open-source AI research and have been an activate contributor to the open-source community on Github. I have developed several open-source projects that have been widely used by the community, of both academia and industry, with over 6k stars received in total on Github. Below are the two most representative projects. See my [Github page](#) for more.

1. Torchreid

- a Python library for research on deep learning-based person re-identification
- received 3.5k+ stars on Github ([ranked No. 1 by popularity on Github for person re-id](#))
- link: github.com/KaiyangZhou/deep-person-reid

2. Dassel.pytorch

- a Python library for research on domain generalization and domain adaptation
- received 600+ stars on Github
- link: github.com/KaiyangZhou/Dassel.pytorch
